Mother Is The First And The Best Teacher

Mother – in her womb a child gets life and on her lap it opens its eyes to the world; hers is the voice that teaches it the first words and the difference between right and wrong – truly it is said that the mother is the ‘Aadi Guru’ (the first teacher) of the child.

Mother is next to God - in fact a visible God. That’s why a Jewish saint said, “God could not be everywhere and therefore he made mothers”. Yes, it is true. It is the mother who takes care to fulfill every need of her child while rearing from birth to make her child great and energetic. Among the four venerable personalities, Mother, Father, Teacher and God, mother is revered firstly and fore mostly.

What Is Education

Education is a process in which and by which the knowledge, characters and behavior of the human being are shaped and molded. Education is lead to the enlightenment of mankind.

Meaning Of Education

In simple words, we can say that education is to bring up, to developing and shaping up the individual talent and his inner potentialities.

Importance Of Pre-School Education

This is the first exercise in which children are separated from the comfort and secure zone of their parents. Therefore, it has to be a place which is a second home to the child; a place, which has enough material to attract and make the child feel comfortable and secure.

SALIENT FEATURES OF A PRE SCHOOL

- A good head start for learning
- Teaching in a fun filled way play method
- Putting children on a path of lifelong learning
- Higher development in language and mathematical skills
- A great opportunity to develop social skills
- Exposure to enhance communication skills

The Importance Of School Education In Child Development Includes

- 1) Mental Aspect
- 2) Social Aspect
- 3) Physical Aspect
- 4) Overall Aspect

Conclusion

Life is also about learning, apart from living. While we can learn to a certain extent from our parents, they tend to be unilateral. At school, children are exposed to various sources from which they can imbibe immense knowledge, instrumental for their development. Hence, school is necessary for children to inculcate “the workings of life.”
