MRS. ANJU SINGH  
PRINCIPAL

Dear Parent,

You may be aware that final examinations of your ward are round the corner and you would be curious that your ward does well.

Please note, amongst the students who will be writing their examinations there might be an artist, who doesn't need to understand mathematics. There might be an entrepreneur, who doesn't care about English; there might be a musician whose Chemistry marks won't matter.

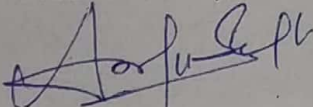

Likewise, there might be an athlete whose physical fitness matters the most than marks secured in Physics. If your ward secures top marks, nothing like that. If he/she does not.... please do not take away his/her self-confidence and dignity from him/her. Tell them its fine. It is just another examination and securing low marks won't take away their dreams and talent. Never think that doctors and engineers are the only happy people. Boost their moral, help them, do not assign them any work which otherwise can be performed by you or any other family member, do not unnecessarily scold them, do not always insist on them devoting more time towards studies.

Just try to do this... watch your children conquer the world.

Assuring you of our best services and seeking your co-operation.

Wishing all the best to you and your wards,

Yours sincerely,

(Mrs. Anju Singh)
